Gern Glas A/S strives to achieve the highest possible quality in all its processes, taking the utmost care of the surrounding environment.

- We will, as a minimum, comply with legal requirements for the company's environmental activities. We will specifically tighten up the requirements in selected areas and for selected activities.
- We will maintain and offer our customers high delivery reliability on an environmentally-sound and economically-viable basis.
- We undertake continuously to improve vital environmental conditions by minimising resource consumption, waste and rubbish.
- We want to create a healthy and environmentally-aware workplace, where continuous efforts are made to increase employees' environmental awareness.
- We will prioritise safety and the working environment so that the workplace is always safe and attractive to the company's employees.
- The environmental policy is the basis for our systematic way of working with environmental issues. It is embodied in set objectives, aims and action plans. The results are continuously evaluated by management.
